

Continuing Medical Education Upcoming 2023 Courses

April 10 - 14, 2023 [40th Annual Physical Medicine & Rehabilitation Review Course](#)

This course is designed as a comprehensive review for physician preparing for ABPM&R Part 1 or 2 Board Certification or re-certification examinations. The curriculum is divided into modules chaired by expert faculty. Teaching methodology is primarily via lectures, with interactive waveform analysis for EMG review and the opportunity to participate in Practice Oral Examinations. (Hybrid: University of Washington Oak-Denny Hall or Live Webinar)

April 28, 2023 [Clinical Cardiology Pearls for Primary Care](#)

This course is tailored for a primary care audience and is intended to provide practical, up-to-date information on commonly encountered cardiovascular diseases. World-class faculty from the University of Washington School of Medicine will teach participants using case-based lectures and an audience response system to encourage interactive dialogue. Recent guidelines for hypertension, cholesterol management, and diabetes will be reviewed. (Live Webinar)

June 22 - 23, 2023 [Travel Medicine and Global Health](#)

This in-person conference will provide an overview of travel medicine and global health and is targeted to non-specialist physicians and other health professionals with an interest in travel medicine and global health. (Hybrid: University of Washington Tower Auditorium or Live Webinar)

July 15, 2023 [Candace Norquist ILD Summit for Internal and Family Medicine Providers](#)

The purpose of this activity is to increase awareness and knowledge of interstitial lung disease and pulmonary fibrosis among general practitioners. This summit was created in honor of Candace Norquist. Ms. Norquist's family wished to sponsor an educational experience to aid general practitioners in recognition and diagnosis of interstitial lung diseases. The content will focus on engaging and educating providers in recognition and diagnosis of interstitial lung disease. (South Lake Union Orin Smith Auditorium, Seattle, WA).

July 28 - 30 2023 [3rd North American Workshop on Ultrasound in Large Vessel Vasculitis](#)

This course is designed to provide basic training for the rheumatologist in performing vascular ultrasound for the diagnosis of large vessel vasculitis. Hands-on training will be a significant component of this activity, partnered with expert faculty in the field, who will discuss and demonstrate how to identify the basic vascular pathological findings. Intermediate to advanced skill in the performance of ultrasound is strongly recommended as a prerequisite to this course (Graduate Hotel, Seattle, WA)

August 13 - 15, 2023 [Emergency Radiology 2023](#)

This hybrid course is designed to provide participants with enhanced understanding of emergency radiology. Attendees will be able to utilize the knowledge gained from the course to optimize imaging protocols, incorporate standardized classification systems, implement updated approaches to management, make appropriate recommendations for incidental findings and ultimately improve patient care. Lecturers will include staff from the highly respected UW emergency radiology section, in addition to well-known radiologists from around the nation. (Hybrid: South Lake Union Orin Smith Auditorium, Seattle, WA or Live Webinar).

Continuing Medical Education Upcoming 2023 Courses

September 11 - 14, 2023 [51st Annual Advances in Family Medicine and Primary Care](#)

Each year our goal is to provide current information about practice skills and the diagnosis and management of a broad array of primary health care issues within family medicine, cardiology, endocrinology, psychiatry and behavioral science, neurology, sports medicine, women's health, pulmonology, nephrology, infectious disease, chronic pain, pediatrics, and gastroenterology. This course is designed for family physicians and other primary care providers including internists, pediatricians, osteopathic physicians, physician assistants, nurse practitioners, and others interested in primary care. All clinicians providing primary care from all training backgrounds and specialties would benefit from this activity. *(Hybrid: University of Washington, Husky Union Building or Live Webinar).*

September 20 - 24, 2023 [14th Annual Comprehensive Hematology & Oncology Review Course](#)

This program is designed for fellows and physicians who are studying for the medical oncology and hematology certification and re-certification exams as well as clinical practitioners wanting to keep up to date on the latest developments in the field of oncology and hematology. This review course offers learners comprehensive reviews of the established standards of care and recent clinical advances in both medical oncology and hematology. *(In-person, Hilton Motif Hotel, Seattle, WA)*

February 2 - 3, 2024 [Men's Health Update](#)

This course is designed for primary care providers and urologists who are seeking an update on important clinical topics in men's health. The course is also well-suited for nurses, nurse practitioners, physician assistants, naturopathic doctors, fellows and residents. The diagnosis and management of Men's Health diseases are continually evolving and are heavily influenced by advances in diagnostic technology, medications, and surgical devices. The greatest challenge that care providers face is staying up to date with the changes in this field, thereby assuring state-of-the-art care for their patients. *(Hybrid: South Lake Union, Seattle, WA or Live Webinar)*
